

Energy performance certificate (EPC)

Flat 3 St. Johns Buildings Canterbury Crescent LONDON SW9 7QH	Energy rating F	Valid until:	6 April 2036
		Certificate number:	7295-3060-9207-6506-8200

Property type	Ground-floor maisonette
Total floor area	196 square metres

Rules on letting this property

You may not be able to let this property

This property has an energy rating of F. It cannot be let, unless an exemption has been registered. You can read [guidance for landlords on the regulations and exemptions \(https://www.gov.uk/guidance/domestic-private-rented-property-minimum-energy-efficiency-standard-landlord-guidance\)](https://www.gov.uk/guidance/domestic-private-rented-property-minimum-energy-efficiency-standard-landlord-guidance).

Properties can be let if they have an energy rating from A to E. You could make changes to [improve this property's energy rating](#).

Energy rating and score

This property's energy rating is F. It has the potential to be E.

[See how to improve this property's energy efficiency.](#)

The graph shows this property’s current and potential energy rating.

Properties get a rating from A (best) to G (worst) and a score. The better the rating and score, the lower your energy bills are likely to be.

For properties in England and Wales:

- the average energy rating is D
- the average energy score is 60

Breakdown of property’s energy performance

Features in this property

Features get a rating from very good to very poor, based on how energy efficient they are. Ratings are not based on how well features work or their condition.

Assumed ratings are based on the property’s age and type. They are used for features the assessor could not inspect.

Feature	Description	Rating
Wall	Solid brick, as built, no insulation (assumed)	Poor
Roof	Pitched, no insulation	Very poor
Window	Partial double glazing	Very poor
Main heating	Boiler and underfloor heating, mains gas	Good

Feature	Description	Rating
Main heating control	Programmer and room thermostat	Average
Hot water	From main system	Good
Lighting	Good lighting efficiency	Good
Floor	Solid, no insulation (assumed)	N/A
Air tightness	(not tested)	N/A
Secondary heating	None	N/A

Primary energy use

The primary energy use for this property per year is 378 kilowatt hours per square metre (kWh/m²).

► [About primary energy use](#)

Additional information

Additional information about this property:

- Single electricity meter selected but there is also an electricity meter for an off-peak tariff
The assessment has been done on the basis of the standard domestic electricity tariff. However some heating or hot water appliances may be on an off-peak tariff.

Smart meters

This property had **smart meters for gas and electricity** when it was assessed.

Smart meters help you understand your energy use and how you could save money. They may help you access better energy deals.

[Find out about using your smart meter \(https://www.smartenergygb.org/using-your-smart-meter\)](https://www.smartenergygb.org/using-your-smart-meter)

How this affects your energy bills

An average household would need to spend **£4,997 per year on heating, hot water and lighting** in this property. These costs usually make up the majority of your energy bills.

You could **save £1,636 per year** if you complete the suggested steps for improving this property's energy rating.

This is **based on average costs in 2026** when this EPC was created. People living at the property may use different amounts of energy for heating, hot water and lighting.

Heating this property

Estimated energy needed in this property is:

- 51,450 kWh per year for heating
- 2,961 kWh per year for hot water

Impact on the environment

This property’s environmental impact rating is F. It has the potential to be E.

Properties get a rating from A (best) to G (worst) on how much carbon dioxide (CO2) they produce each year.

Carbon emissions

An average household produces	6 tonnes of CO2
This property produces	14.0 tonnes of CO2
This property’s potential production	9.0 tonnes of CO2

You could improve this property’s CO2 emissions by making the suggested changes. This will help to protect the environment.

These ratings are based on assumptions about average occupancy and energy use. People living at the property may use different amounts of energy.

Steps you could take to save energy

► [Do I need to follow these steps in order?](#)

Step 1: Internal wall insulation

Typical installation cost	£7,500 - £11,000
---------------------------	------------------

Typical yearly saving	£1,080
-----------------------	--------

Potential rating after completing step 1	43 E
--	------

Step 2: Floor insulation (solid floor)

Typical installation cost	£5,000 - £10,000
---------------------------	------------------

Typical yearly saving	£83
-----------------------	-----

Potential rating after completing steps 1 and 2	44 E
---	------

Step 3: Draught proofing

Typical installation cost	£150 - £250
---------------------------	-------------

Typical yearly saving	£59
-----------------------	-----

Potential rating after completing steps 1 to 3	45 E
--	------

Step 4: Heating controls (time and temperature zone control)

Heating controls (zone control)

Typical installation cost	£220 - £250
---------------------------	-------------

Typical yearly saving	£274
-----------------------	------

Potential rating after completing steps 1 to 4

48 E

Step 5: Double glazed windows

Replace single glazed windows with low-E double glazed windows

Typical installation cost

£4,500 - £6,000

Typical yearly saving

£140

Potential rating after completing steps 1 to 5

50 E

Who to contact about this certificate

Contacting the assessor

If you're unhappy about your property's energy assessment or certificate, you can complain to the assessor who created it.

Assessor's name

Keith Morton

Telephone

07737709750

Email

musaman12000@yahoo.ca

Contacting the accreditation scheme

If you're still unhappy after contacting the assessor, you should contact the assessor's accreditation scheme.

Accreditation scheme	Elmhurst Energy Systems Ltd
Assessor's ID	EES/032069
Telephone	01455 883 250
Email	enquiries@elmhurstenergy.co.uk

About this assessment

Assessor's declaration	No related party
Date of assessment	31 March 2026
Date of certificate	7 April 2026
Type of assessment	► RdSAP

Other certificates for this property

If you are aware of previous certificates for this property and they are not listed here, please contact us at mhclg.digital-services@communities.gov.uk or call our helpdesk on 020 3829 0748 (Monday to Friday, 9am to 5pm).

Certificate number	8597-7624-0670-5745-4926 (/energy-certificate/8597-7624-0670-5745-4926)
Expired on	25 April 2023
